

Premium-Plissee Stoffe - Unterschiede

abdunkelnd:

Diese Stoffe sind in allen Farben selbst 100% lichtundurchlässig und bieten dadurch kompletten Sichtschutz. Die Plissee verdunkeln den Raum. Durch den benötigten Spalt an den Seiten und die Löcher im Stoff für die Spannfäden dringt jedoch noch etwas Licht ein. Ideal für Kinderzimmer, Büroarbeitsplätze mit Sonneneinstrahlung und für die Privatsphäre.

lichtdurchlässig bis 50%:

Diese Stoffe dimmen den Lichteinfall und bieten guten Blend- und Sichtschutz. Ideal für Badezimmer oder wo es Privatsphäre braucht, Büroarbeitsplätze mit keiner direkten Sonneneinstrahlung zum Bildschirm.

transparent:

transparente Stoffe dienen als leichten Sicht- und Blendschutz. Sie lassen am meisten Licht in den Raum, sind aber nicht komplett blickdicht. Ideal für Dekorationszwecke, Wohnzimmer und Küche.

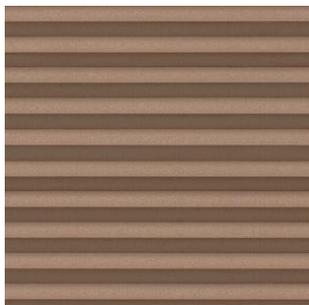

Haben Sie ihre Favoriten gefunden?

Gerne senden wir Ihnen die ausgewählten Stoffmuster und die kompletten Angaben zu. Stoffe soll man auch fühlen können.
